| Bug Screen—Fits top of any Aladdin chimney to prevent bugs from getting into it and breaking mantle.   | .20       | .30    |  |      |      |

**NOTE:** Under present war conditions, it is no longer permissible to do copper, brass, or nickel plating. All parts now manufactured must, if finished at all, be finished by polishing, oxidizing or heat treatment of the particular metal of which part is made. This restriction limits brass parts to Satin Brass or Oxidized Bronze finish and iron or steel parts to Black Penetrate or Lacquer finishes.

While all parts listed above are shown in the new finishes only, we still have some few parts (pre-war made) in Nickel finish, and these will be supplied to dealers, if they so specify, as long as these Nickel finished parts last.
