Aladdin

**THE BRIGHTER
LIGHT**

**OVER 9 MILLION
HOMES THROUGH-
OUT THE WORLD
PREFER ALADDIN
BECAUSE IT IS THE
BEST AS WELL AS
THE CHEAPEST
LIGHT.**

FOR INDOOR LIGHTING Aladdin lamps are unique. They give the finest light obtainable from paraffin and they represent the cheapest form of lighting known. They give a beautiful white light, soft and uniring to the eyes, and are far cheaper to burn than gas, electricity or other forms of oil lighting. They have many unique features: instant lighting, silence in operation, odourless and smokeless, simple and safe—cannot possibly explode or catch fire. Over 9,000,000 are in use throughout the world. Could there be any greater proof of their sterling qualities?

FOR OUTDOOR LIGHTING of any description, we recommend Aladdin Petromax Rapid or Aladdin Petromax Lanterns. These lanterns are absolutely safe in use and give an amazing light at extremely low cost. The RAPID models are particularly recommended as the automatic lighting device enables the lantern to be lighted in less than a minute without the necessity of using methylated spirits.

GUARANTEE

You take no risk when you buy the Aladdin because every lamp, heater or radiator is guaranteed against defect in material or workmanship and is warranted mechanically perfect.

Aladdin PETROMAX RAPID LANTERNS

(Continued)

INSTANT LIGHTING WITHOUT METHY- LATED SPIRITS....

The Aladdin Petromax Rapid Lanterns burn paraffin only—yet they light instantly. No pre-heating with methylated spirits. Just light with a match and within less than one minute, the Aladdin Petromax Rapid gives a pure white light of astonishingly wide range. A truly wonderful light that brings daylight to all those night-time out-of-door jobs. Aladdin Petromax Rapid Lanterns are fitted with a unique rapid lighting device which draws the paraffin from the tank for pre-heating and instant lighting. The rapid lighting device is simple to operate, and, being built into the lamp, does not interfere with any of its normal working parts. Aladdin Petromax Rapid Lanterns are extremely strong in construction, well finished, and are fitted with reliable pressure gauges. The ideal lanterns for outdoor lighting.
